

After inheriting the 4th eleven at short notice and following a season of near relegation the season 6 straight victories with strong performances from many younger players supported by the more mature members of the team.

During the season we saw several of the younger players move up to the 3rds where most used their 4ths experience to cement places.

We had some memorable matches including a tie and playing the only game in Dorset on one wet weekend.

We spent the first half of the season topping Division 5 but eventually following defeats by Weymouth 2nds had to settle for runners up spot and promotion to Division 4.

The third placed team were 48 points behind us and we were 27 points below Weymouth.

Overall a successful season played in good spirit with many outstanding performances by several players but overall a solid team effort.
