

Dear all

I'm sad that I haven't been as active and progressive as is needed by the club in the last 12 months. I am proud of what all the players, of all ages, achieve in the various formats of cricket we play.

Dorset league cricket for men is still going through big changes and the work your Chair, vice chair, Treasurer and Club Captain do to try and sustain our position is beyond compare. We must all try and support their efforts in whatever way we can.

On top of that we have the ongoing situation over Poole Park which continues to frustrate. Hopefully we can get people with relevant skills, experience and time to help progress this.

From an administrative perspective the channels of communication through league secretary are good which is always appreciated. We have one affiliation task to accomplish post AGM so any new officers will need to supply email and mobile numbers to be part of that exercise.

I am happily continuing supporting DBS ID verification and supporting the apres cricket activities as well as accompanying teams who need a scorer. Good luck to everyone involved with PTCC in this next season, many thanks for your support during my reign of terror, sorry term as secretary.

Cheers

Andy Milner
